# HOW IT WORKS?

Partnering with Faire & Co for your school's after-school program is seamless and flexible. Here's how our session integration with your school operates:

- **Tailored Program Promotion:** Your school advertises our selected program (details below), manages registrations, and handles payments from students. Alternatively, we can manage this process through our online booking system.
- **Comprehensive Supplies:** We provide all necessary materials and equipment required to execute the chosen project, ensuring a hassle-free experience for your school.
- **Take-Home Projects:** Children take their completed projects home, fostering a sense of accomplishment. Additionally, we share photos of their creations with your school, which you can use or share with parents according to your preferences.

We understand the importance of aligning with your school's calendar, events, pupil-free days, and term timetables, ensuring a harmonious fit within your after-school program. Let's collaborate to bring creativity and excitement to your students through our engaging sessions.

# PROGRAM: *Created to Create*

**FOCUS:** PROCESS ART  
**SUITABLE FOR ages:** 5 YEARS TO 15 YEARS  
**PRICING:** \$30 PER 1HR SESSION  
**OVERVIEW:**

JOIN OUR BOUNDARY-BREAKING ART SESSIONS AT FAIRE & CO, WHERE WE PRIORITIZE THE CREATIVE JOURNEY, FOSTERING EMOTIONAL WELL-BEING, COGNITIVE SKILLS, AND INDIVIDUAL EXPRESSION, INVITING STUDENTS TO EXPLORE, EXPERIMENT, AND IMAGINE FREELY

There are a bunch of places to do art classes, however, the majority of these sessions, whether they are at school or art studios, are focused on the product, the end result, ensuring everyone's piece fits the brief. A lot of children, and teens, shy away from art as they get older because its focus is on perfection, history and fitting in the box.

Whilst we love visual art classes, and there is a place in this world for them, our way is slightly different. Process Art nurtures social and emotional health, reinforcing such skills as relaxation, focus, self-esteem and emotional sharing. It helps to build such cognitive skills as comparison, prediction, planning and problem-solving

*Our classes focus on the process of creating, not necessarily the result.*

Our goal is to encourage, pump up, inspire, experiment and focus your creativity on fun and mindfulness. There is no pressure to create, no need to stay inside the lines.

At Faire & Co, we give you a reference and a guide on what mediums to use, outside of that we encourage, and want you to create, whatever you feel like! We aim to complete four projects each term using a different medium.

This allows students who are a bit left of centre or need to break out and just create, can use their imagination to create whatever their heart desires. Process art allows children to find their creative individuality.

# PROGRAM: Splatterfest

**FOCUS:** COMBINE YOUR LOVE OF WRITING WITH SUITABLE DRAWING.

**PRICING:** 5 YEARS TO 12 YEARS

**OVERVIEW:** \$35 PER 1HR SESSION

JOIN US FOR SPLATTERFEST, WHERE MESSY FUN MEETS TACTILE EXPLORATION IN AN EXCITING JOURNEY OF SLIME, CLAY, AND SENSATIONAL SENSORY ADVENTURES!

Welcome to **Splatterfest** - where the magic of messy play meets the thrill of tactile exploration! This adventurous class invites students into a world of sensory wonder, encouraging them to unleash their creativity through a series of hands-on, messy, and oh-so-fun activities.

In Splatterfest, students dive into a whirlwind of sensory experiences. From the squishy and gooey world of slime-making to the captivating clay sculpting station, this class is designed to captivate the imagination and inspire innovative thinking.

Our sensational slime experiments transport participants into a scientist's paradise, where they blend, mix, and concoct their very own oozing and colorful slime creations. This not only sparks joy but also fosters curiosity and introduces basic scientific concepts in an engaging manner.

But that's not all! The clay corner in Splatterfest is where artists of all kinds flourish.

*Students mold and shape their ideas into tangible creations, exploring textures and shapes while expressing themselves artistically.*

Each session at Splatterfest is carefully crafted to promote sensory exploration and tactile engagement, providing a supportive environment for students to get their hands messy and minds creatively engaged.

Guided by experienced facilitators, this class aims to stimulate cognitive growth, fine motor skills, and imaginative thinking through messy yet rewarding experiences.

JOIN US FOR A MESSY ADVENTURE WHERE EXPLORATION KNOWS NO BOUNDS AND CREATIVITY FINDS ITS MESSILY DELIGHTFUL EXPRESSION AT SPLATTERFEST!

# PROGRAM: *Bullet Journaling*

**FOCUS:** COMBINE YOUR LOVE OF WRITING WITH DRAWING.

**SUITABLE FOR AGES:** 7 YEARS TO 15 YEARS

**PRICING:** \$35 PER 1HR SESSION

**OVERVIEW:**

UNLEASH CREATIVITY THROUGH WRITING AND DRAWING IN OUR BULLET JOURNALING: JNR CLASS, FOSTERING LITERACY, EXPRESSION, AND MINDFULNESS FOR YOUNG MINDS

This class combines your love of drawing and writing in one amazing bullet journal!

Each week children will choose a prompt to draw and write about and we will progressively increase our writing and creativity throughout the term, with an aim to fill the journal over the year.

This is a great class for those needing to practice their writing or love of writing, with no pressure to "get it right" but just express them selves through pictures and writing.

*Perfect for children who struggle with reading and writing.*

Bullet Journalling is a mindfulness practice disguised as a productivity system. Journaling in adults and teens has been scientifically proven as positive for mental health, encouraging kids to do this can help develop those skills at young age, equipping them with the ability to master the technique earlier and being able to be far more expressive about their surroundings, and feelings.

With all that in mind, we are introducing our Bullet Journalling: Jnr class. This class combines your love of drawing and writing in one amazing bullet journal!
